

AMENDMENTS TO THE SPECIFICATION

Please replace paragraph [0033] with the following amended paragraph:

[0033] Component 140 exposes a XML data schema that describes how an XML document should be formed to access object, methods, and attributes on the component 140. The XML document transmitted in step ~~340~~210 should conform to the specifications in the XML data schema. Note that the XML data schema is different than the exposed data model discussed above in the section entitled “Registration of the Component with the Programmatic Agent.” Table 2 is an example XML document transmitted in step 210 according to an embodiment.
